

165' BOURBON ADELAIDE

Fast support and intervention vessel (FSIV)

82 passengers

233 Metric ton deck cargo

165' FSIV BOURBON ADELAIDE has been designed by Design Associates, Inc. for fast transportation of personnel and cargo. Able to carry 223 metric tons on deck at 18 knots, this vessel allows crew changes on distant deep water fields and urgent cargo shipments. Under the main deck, the vessel is fitted with fuel and fresh water cargo capacities. The propulsion with four propellers and a bow thruster gives her an excellent manoeuvrability. The wheelhouse is partially bulletproof by means of additional steel plating.
